TAKE THE STEAM TRAIN TO THE WINERY DURING THE SUMMER SEASON

Chase & Warren is one of the only wineries in North America that is serviced by a steam train that stops right at the vineyard. The train winds along the escarpment formed by glaciers thousands of years ago, offering views of our beautiful valley and the mountains that surround it through stands of fir, maple and balsam. From the platform there are spectacular views of Mount Klitsa and Nahmint and off to the right, Forbidden Plateau and the Comox Glacier. A short walk takes you down through the vineyard to the winery where you can sample some wine and see how it's made. It's easy to make the arrangements just call the Train Station~ 723-2118, McLean's Mill~ 723-1376 or the Winery~ 724-4906.
